## August 4, 2011

**Class Number** AP105

**Name** Drama Class (Movie In Making)

**Description** Drama is both a literary and performing art. In recognition of this, students will perform an original play one semester and write a class play the next semester. As part of performing the play students must be able to read and memorize lines . We will be taping the play to show it as a movie. Therefore, your children, friends and family can enjoy a movie night on a date to be announce during the school year. Parents may be asked to help with costumes and set. Most of the written class play will be composed in class as a collaborative effort. The goal is for children to appreciate and understand the "writing" process.

## August 4, 2011

**Class Number** RL101

**Name** Chapel

**Description** God's Holy Word is a tool to inspire and build our character. Galatians 5:22 is ripe with character attributes to which each Christian should aspire, the fruit of the Spirit - love, joy, peace, patience, kindness, goodness, faithfulness, gentleness and self-control. Our chapel sessions this year will focus on obtaining a deeper understanding of the Holy Spirit examining each attribute listed in the Galatians passage. In reference to the fruit of the Spirit, the Bible boldly proclaims, "...against such things there is no law."

<b>Teacher</b>	<b>Grade</b>	<b>Tuition (\$)</b>	<b>Supply Fee (\$)</b>
Yolanda Laguitan	K-4	20 (1st sem) or 40 (whole Year)	0

**Class Number** RL102

**Name** Chapel

**Description** Chapel for older students will be Bible event and principle oriented. We will discuss various Bible events and discover how God wants us to respond as His children. Students are encouraged to ask questions, and together we will seek out what the Bible says. The ultimate goal is to conform our thinking to line up with God's.

## August 4, 2011

**Class Number** SC101

**Name** Science I

**Description** This class is designed to give a hands on experience to the 1st - 6th grader and to reinforce the Science that is taught from the textbook at home. Topics covered are Biology, Chemistry, Physics, and Earth Sciences. The desire is to promote a love of Science and to show how it affects our daily lives. Most of the material we will use for our experiments are everyday items found in the home. Some of the items will come from purchased kits. We will learn how to use a microscope to study things like plants, fungus and micro organisms.

**Textbook**

<b>Teacher</b>	<b>Grade</b>	<b>Tuition (\$)</b>	<b>Supply Fee (\$)</b>
Barbara Kelly	2-4	25	20

**Class Number** SC102

**Name** Science II

**Description** This is a fun and challenging Science class designed to teach scientific thought in addition to scientific memorization. The first half of the year will be spent learning about and practicing the scientific method. We will perform various experiments in biology, astronomy, earth science, chemistry, and physics. The second half of the year will be devoted to independent experimentation (applying scientific principles to projects). Class time will generally be spent on team projects and homework will be given to create a class worth one year's credit.
